

First of all I would like to express my appreciation to *GM Jonathan "Jon" BAIS* Director of K.S.K Kalis-Silat-Kuntaw and also thanks for *GURO Elmer BAIS* for helping in rebuilding my self confident and for showing me how to protect my self and my co-working from the dangerous life of Law Enforcement business.

Hello. My name Vidor T. GUEVARA and I have been in Law Enforcement for 15 years. I am currently assigned in the warrant squad. N.C.T. F (Northern California Task Force) working in conjunction with State Parole and FRET Unit (FUGITIVE RECOVERY ENFORCEMENT TEAM). We are the suppression unit and our primary job to locate, apprehend and bring them to justice. Every day with deal with the low life and encounter with most dangerous fugitives on the streets I.A. robbers, high risk sexual offender, gang members, high controlled paroles and murders. Those people that have nothing to lose and total disregard of human life, the scam of earth, end of the line type of people.

I would like to convey and express my gratitude to GM BAIS. Because he showed me some self defense move that save my life and life of another law enforcement officer. I have managed to control and disarm a dangerous suspect who was arm with a knife and under the influence of drugs. Because of GM BAIS TRES MANOS SYSTEM and instructions. I have learned to focus and rebuilt my self confident.

Being in law enforcement business is not a joke. The people we dealt with are more dangerous and trained themselves with some kind of self defense from prison. My only advice to my fellow police officer is to keep up with your skills, training and self preservation, need to find out what's your handicap and polish that skills. Keep on training and don't stop learning self preservation and street survival is our bread and butter, so keep up the good work and carry on.

Maestro Jon BAIS, I tip my hat to you and mabuhay to the BAIS TRES MANOS.

VICTOR T. GUEVARA
Criminal Investigator
Warrant Squad Division.
